## SUMMARY

---

Product Manager (TPM) with 4+ years delivering AI/ML and edge platform products for B2B SaaS. Proven track record in enterprise client stakeholder management, vendor partnerships, user research, and end-to-end product delivery. Launched products across 500+ sites, cutting manual work by 60% and improving SLA compliance. Skilled in product strategy, system architecture, MLOps, and cross-functional leadership bridging engineering and business goal.

## WORK EXPERIENCE

---

### Evercam | Dublin, Ireland

#### *Technical Product Manager | March 2024 – July 2025*

- **Reduced manual reporting by 60%** by leading *Gate Report*, a YOLOv7-based AI platform on Jetsons across 100+ global sites, coordinating Ops and Customer Success teams to improve compliance tracking.
- **Scaled exnvr product from 150 to 1,200+ edge deployments**; reduced on-site support by 35% and improved SLA.
- Aligned product roadmap with OKRs, engineering feasibility, and customer feedback across firmware, DevOps and ops.
- Oversaw CI/CD security checks through OSS reviews, vulnerability scans (SAST/DAST), and compliance workflows.
- Prioritized features via Productboard and user research; led sprint planning and shared rollout insights with leadership

#### *Product Owner (APM-equivalent) - ML & Computer Vision | July 2022 – March 2024*

- Led development and rollout of YOLOv4/v7 models on NVIDIA Jetsons, enabling real-time alerts under 5 seconds to improve site safety and traffic insights.
- **Accelerated model rollout by 55%** by designing CVAT – Airflow – MLflow pipelines and managing a remote ML annotation team (980K+ frames, 96% accuracy), achieving 92% model performance.
- Established ML release workflows with rollback and proactive alerting, ensuring production stability.
- Owned ML infrastructure and CV tools roadmap, balancing technical feasibility with user needs.

#### *Computer Vision Engineer - R&D | May 2021 – July 2022*

- Built distortion correction pipeline improving measurement accuracy by 30%; boosted NPS scores.
- Delivered DroneView & 360° photogrammetry PoC, later adopted by enterprise clients for remote site walkthroughs.

## KEY PROJECTS

---

- **Gate Report** - YOLOv7-based traffic analytics on Jetson devices (100+ global sites). Reduced manual reporting by 60%.
- **exnvr** - OTA and observability platform managing 1,200+ edge devices. Reduced support needs by 35%.
- **MLOps Pipeline** - Drove MLflow-Airflow-TensorRT pipeline to accelerate model rollout by 40% across edge fleet.

## SKILLS

---

**Product & Process:** Roadmapping, Agile (Scrum), VOC, Jira, Figma, Confluence, Mixpanel, Notion, Productboard

**System design:** API Design, Microservices, Databases, Distributed Systems, Edge Architectures, Postman

**DevOps & Infra:** AWS, Docker, Kubernetes, Terraform, GitHub Actions, Jenkins, Ansible, Prometheus, Grafana, Airflow

**Security & Compliance:** CI/CD Compliance, SAST/DAST, OSS Scanning

## CERTIFICATIONS

---

- Certified Scrum Master - **Scrum Alliance (2025)**
- Product Strategy & Roadmap - **PMI CEU (2025)**
- Data-Driven Product Management - **NASBA CEU (2025)**

## EDUCATION

---

- **MBA – Technology (Hybrid Program, Expected 2027)**

Indian Institute of Technology, Jodhpur (IIT J) | 2025 – 2027

- **B. Tech - Mechanical Engineering**

School of Technology (GSFCU) | 2018 – 2022
